THE VINEYARDS OF NANTES A UNIQUE AREA

The riches of the Nantes vineyard

- A vineyard established close to the Loire River and rooted in the valleys and hillsides ideal for the cultivation of vines, favoured by a mild climate. A place of work for the winegrowers that lives according to the rhythm of the seasons;
- The Loire river, and its tributaries, which flow through this country, shape it and carry its memory, first as trading routes, today as places of living;
- In the nineteenth century the vineyards of Nantes gave themselves southern airs, a perfume of Italy, new colors. That local French area is a real escape!

LE VIGNOBLE DE NANTES TI AMO !

Clisson Italian spirit

The entire vineyard, based on Clisson models, grew rich of a rural and industrial heritage inspired by central Italy. The wine-

making activity brought to the foreground in parallel another Italian style.. Mansions and large houses were then inspired by Venetian Palladian villas. Two Italian styles which mark the whole area.
